Domain Model and Domain Modeling - GitHub Pages
Visualizing the Domain Model | A class describes a set of

objects with the same semantics, properties and behavior. When used for domain modeling, it is a visualization of a real world.

Domain Modelling - Appropriate Process

In short, the domain is modelled independently of how the model is to be used in a given system, responsibilities are assigned to abstractions during that process, and the responsibilities required to realize specific Use Cases are identified as the Use Case is
