[Is Economic Growth Necessary for Economic Development-%0d ...](#)

Economic growth merely refers to an increase in the real Gross Domestic Product, or GDP per capita over a period of time. It is natural to be misled by the idea that economic growth is the key to economic development and perhaps a condition of development itself, but development is more than simply increasing economic output (i.e. GDP per capita).

[US economic growth slows in fourth-quarter on ... - CNBC](#)

U.S. economic growth unexpectedly slowed in the fourth quarter as the strongest pace of consumer spending in three years resulted in a surge in imports.

[Economic growth refers - Investopedia](#)

Economic growth is an increase in the capacity of an economy to produce goods and services, compared from one period of time to another. It can be measured in nominal or real terms, the latter of

[Economic Growth: Definition, Measurement, Causes, Effects](#)

Economic growth is an increase in the production of goods and services over a specific period. To be most accurate, the measurement must remove the effects of inflation. Gross domestic product is the best way to measure economic growth. It takes into account the country's entire economic output.

[Economic growth - Wikipedia](#)

Economic growth is the increase in the inflation-adjusted market value of the goods and services produced by an economy over time. It is conventionally measured as the percent rate of increase in real gross domestic product, or real GDP.
