9 LECTURE NOTES EXPERT SYSTEMS

INTRODUCTION - nptel.ac.in

Expert system is a branch of Artificial Intelligence but it differs from others in that: It deals with subject matter of realistic complexity It must exhibit high performance It must be plausible Expert Systems, Knowledge Based Systems and Knowledge Based Expert Systems are often used synonymously. KNOWLEDGE ENGINEERING The process of building an expert system is called knowledge engineering

eXpertise2Go Tutorial: Expert System Inference Methods and ...

Inference Methods and Uncertainty [1] This presentation shows you how the components of an expert system interact to provide advice. The reasoning mechanisms used by the inference engine to process rules in the knowledge base and the techniques used to manipulate uncertain data are described.

What is the difference between an expert system and ...

Artificial Intelligence is a term much abused - particularly by the computing fraternity (of which I am one). In the late 1980s the term expert system was coined as a knowledge

based product (and so part of AI). Often they used rules, but also objects (data items) and relational structures.
