How neuroleptics are used in relapse prevention is a very controversial topic. Fifty percent of all schizo- phrenic patients do not receive sufficient prophylactic treatment and suffer from frequent relapses. To help correct this situation, leading international experts in the field of neuroleptic relapse prevention (n.r.p.) agreed upon guidelines after intensive discussions at a consensus workshop in Bruges in April 1989. Precise guidelines to the most important questions on n.r.p. are
