International trade and Climate Change : Economic, Legal ...

The broad objective of this study is to analyze areas in which the climate change agenda intersects with multilateral trade obligations. The study identifies the key issues at stake, as well as possible actions -- at the national and multilateral levels -- that could help developing countries strengthen their capacities to respond to emerging conflicts between international trade and global climate regimes while taking advantage of new opportunities. The study also attempts to respond to the

TRADE AND CLIMATE CHANGE POLICY BEYOND 2015

TRADE AND CLIMATE CHANGE POLICY BEYOND 2015 Trade policies can have an impact on the climate change mitigation efforts of countries, just as policies for addressing climate change can influence trade among countries. This relationship will enter a new phase in 2015 as significant changes in the policy landscape emerge from the adoption by the United Nations of a universal post-2015 development
