Risk Assessment in Project Management | Simplilearn

Risk assessment is a step in a risk management procedure. Risk assessment is the determination of quantitative or qualitative value of risk related to a concrete situation and a recognized threat. Risk assessment involves measuring the probability that a risk will become a reality. But in any project, risk assessment is not a project manager's sole responsibility. A special meeting has to be

Risk management - Wikipedia

Risk management is the identification, evaluation, and prioritization of risks (defined in ISO 31000 as the effect of uncertainty on objectives) followed by coordinated and economical application of resources to minimize, monitor, and control the probability or impact of unfortunate events or to maximize the realization of opportunities.
