[Minimally-Invasive Surgery \(MIS\) Quadriceps-Sparing Total ...](#)

Partial knee replacements have been done for over 20 years and the track record on the devices used for this operation is excellent. The new surgical approach which uses a much smaller incision than traditional total knee replacement significantly decreases the amount of post-operative pain and shortens the rehabilitation period. The decision of whether this procedure is appropriate for a specific patient can only be made in consultation with a skillful orthopedic surgeon who is
