3rd Grade Number - K-5 Math Teaching Resources
3.OA.C.7 Fluently multiply and divide within 100, using strategies such as the relationship between multiplication and division (e.g., knowing that $8 \times 5 = 40$, one knows $40 \div 5 = 8$) or properties of operations. By the end of Grade 3, know from memory all products of two one-digit numbers.
REAL Essentials Life | The Center for Relationship Education

The framework of this curriculum allows groups to expand their understanding of individual identity, communication strategies, and future commitment. All lessons are inclusive, evidence based and medically accurate.

Tiered Lessons: One Way to Differentiate Mathematics ...

Working in the Burris Laboratory School, an inclusion school using a resource consultation model to serve the needs of all its students, we have found that using tiered lessons is a viable method for differentiating instruction.

1.OA.6 / 2.OA.2 - Mental Math Strategies: Make 10

In this video, Mr. Almeida explains how to use mental strategies to add within 20 using the "make 10" strategy. This is one of the strategies suggested in the Common Core State Standards for
